PSYCHOLOGY — HONOURS — PRACTICAL

Paper : CC-7P

(Social Psychology)

Full Marks : 30

The figures in the margin indicate full marks.

*Candidates are required to give their answers in their own words
as far as practicable.*

Answer the following questions (word limit : **150** words each)

1. Imagine that you are performing a task alone. Several people are watching you intently. Will their presence influence your performance? Explain it with reference to any two relevant theories. 10
 2. How would you design a study to show that social situations produce differential effects on the task-performing behaviour of your subjects? (N = 3) 10
 3. Explain the processes leading to social loafing versus social compensation. 10
